Our Certificates

History

ULTRAMED is a factory based in Arab El-Awamer Industrial Zone, Abnoub, Assiut, Egypt.

We are specialized in manufacturing medical disposables.

We started our production steps in May 2003; however, in less than two years' time, ULTRAMED has become one of the largest companies in Egypt and the Middle East. Our diverse and highly skilled global workforce consists of more than 1200 employees.

Vision

"To supply the best quality medical disposables through the most up-to-date know-how to ensure better health for mankind."

Certificates

We are certified from HCert with CE Mark, ISO 9001 & ISO 13485.

I.V. Cannula

Code : 1001

Description

The I.V. Cannula family is designed to provide access into the peripheral vascular system for administration of fluids and drugs and for withdrawal of blood.

Features

1- Sharp, 3-facet back cut Needle to reduce penetration force.

2- Special tapered & Kink resistant catheter for easy vein punctures with minimum trauma.

3- Flexible wings to provide easy & secure fixation.

4- Injection port with non-return silicone valve for intermittent medication.

Code	Size	Color	Catheter		Catheter Length Mm	Water Flow Rate (ml/min)
			I.D. mm	O.D. mm

1001-26	26G	Violet	0.45	0.6	19	15

I.V. Infusion Set

Code : 1009

•Description

• The Infusion Sets are used to administer Intravenous fluid and medicines into human circulating system.

•Features

1- Clear, transparent & flexible drip chamber.

2- Soft and kink resistant medical PVC tubing.

3- Accurate flow controller.

4- Tube die: **I** Ø 3.0 mm, **O** Ø 4.1 mm

Micro Needle I.V. Set

Code : 1012

•Description

• Intravenous Fluid Infusion Set without air vent.

• Approximately 60 drops/ml.

•Features

1- Clear, transparent & flexible drip Clear, transparent & flexible drip chamber.

2- Soft and kink resistant PVC tubing. Accurate flow controller.

3- Tube die: **I** Ø 3.0 mm, **O** Ø 4.1 mm

I.V. Infusion Set with Flow Regulator | Code : 1013

• Description

• Flow Regulator integrated into IV Infusion set for precise flow control of fluids with range of 5 to 250 ml/hr.
• Approximately 20 drops/ml.

• Features

1- Clear, transparent & flexible drip chamber.
2- Soft and kink resistant PVC medical tubing.
3- Accurate flow controller.
4- Tube die: I Ø 3.0 mm, O Ø 4.1 mm

I.V. Infusion Set with Air-vent | Code : 1014

• Description

• I.V. Set with air vented spike.
• Bacteria retentive air inlet with snap on cap.
• Approximately 20 drops/ml.

• Features

1- Clear, transparent & flexible drip chamber.
2- Soft and kink resistant PVC tubing.
3- Accurate flow controller.
4- Tube die: I Ø 3.0 mm, O Ø 4.1 mm

Burette Set

Code : 1016

• Description

• The Pediatric I.V. Infusion Sets are specially designed to Administer measured volume of infusion fluid through gravity as well as pressure pump method in children.

• Features

1- Clear, soft, cylindrical & calibrated measured volume chamberwith bold graduations.
2- Bacteria retentive air inlet.
3- Automatic shut off valve prevent air trapping in the fluid line once the measured volume chamber is empty, and it also indicates the level of liquid.
4- 15 µm fluid filter.
5- Approximately 60 drops/ml.
6- Soft and Kink resistant medical PVC tubing.
7- Tube length: 150 cm.
8- Available sizes:

100 ml (Code: 1016-100)
150 ml (Code: 1016-150).

Flow Regulator | Code : 1010

• Description

• Flow regulator is used to administer Intravenous fluid and medicines into human circulating system.

• Features

1- Precise flow rate control of IV fluids with range of 5 to 250 ml/hr.

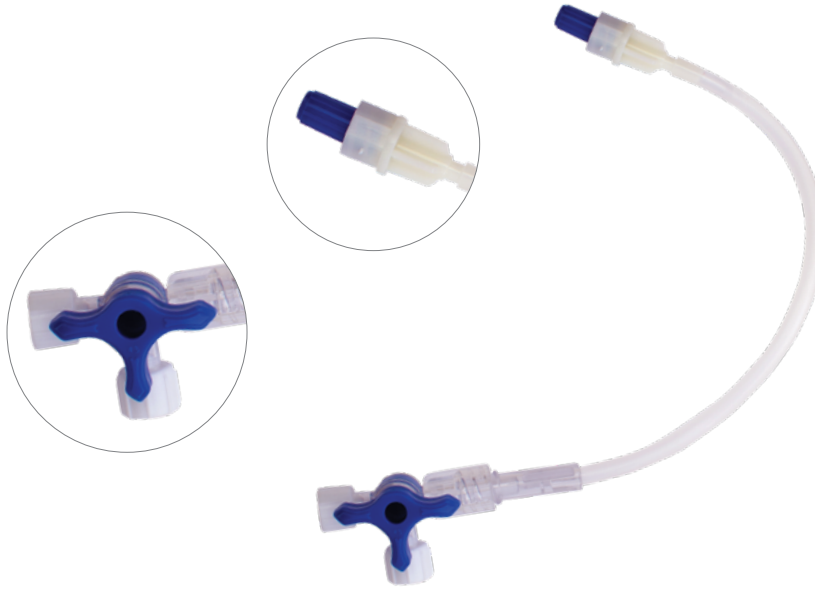
Three Way Stop Cock | Code : 1006

• Description

• The Three Way Stop Cock family is designed to provide access into I.V. Cannula system for administration of two fluids or drugs.
• For pressure up to 4.5 bar (65 psi).
• 360-degree rotation.

• Features

1- Rotating male luer and two female luer connectors.
2- Arrow indication on the handle to indicate the direction of flow.



Three Way Stop Cock with Low Pressure Extension Tube

Code : 1008-LP

• Description

• The Three Way Stop Cock family is designed to provide access into I.V. Cannula system for administration of two fluids or drugs at a time, based on the application and requirements.
• For pressure up to 4.5 bar (65 psi).
• 360-degree rotation.

• Features

1- Rotating male luer and two female luer connectors.
2- Arrow indication on the handle to indicate the direction of flow.
3- Tube Length:
7, 10, 25, 50, 100, 150, 200 cm.

Extension Line | Code : 1011-LP

A. Low Pressure Extension Line

• Description

• The Extension Tube is used to administer Intravenous fluid & medicines into human circulating system.
• For pressures up to 4.5 bar (60psi).

• Features

1- Male luer lock at one end & female luer lock at the other end.
2- Tube Length options: (7, 10, 25, 50, 100, 150, 200) cm.
3- Tube die: **I** Ø 3.0 mm & **O** Ø 4.1mm.

Extension Line | Code : 1011-HP

B. High Pressure Extension Line

• Description

• Small-bore High-Pressure Extension line suitable for high pressure monitoring up to 54 bar (800psi).

• Features

1- Male luer lock at one end & female luer lock at the other end.
2- Tube Length options: (7, 10, 25, 50, 100, 150, 200) cm.
3- Tube die: **I** Ø 1.5 mm & **O** Ø 3.0mm.

Anaesthesia

1. Suction Catheter *(Plain Connector)*
2. Suction Catheter *(Thumb Control Connector)*
3. Nasal Oxygen Cannula *(Adult/Pediatric/Neonatal)*
4. Oxygen Face Mask *(Adult/Pediatric)*
5. Nebulizer Mask *(Adult/Pediatric)*
6. Guedel Airway
7. Mucus Extractor
8. Endotracheal Tubes
9. Reinforced Endotracheal Tube With Cuff

Suction Catheter | Code : 2001

(Plain Connector)

Description

• Suction Catheter is used to provide access to respiratory tract to remove secretion with maximum comfort to the patient.

Features

1- For removal of Secretion from trachea and bronchial region.
2- Soft, frosted and kink resistant medical PVC tubing.
3- A traumatic, soft & rounded open tip with two lateral eyes.
4- Color coded connector for easy identification of size.
5- Catheter Length: 52 cm.
6- Sizes: 6 FG to 20 FG.

Code	Size	Color
2001-6	6 FG	Light Green
2001-8	8 FG	Blue
2001-10	10 FG	Black
2001-12	12 FG	White
2001-14	14 FG	Green
2001-16	16 FG	Orange
2001-18	18 FG	Red
2001-20	20 FG	Yellow

Suction Catheter | Code : 2002

(Thumb Control Connector)

Description

• Suction Catheter is used to provide access to respiratory tract to remove secretion with maximum comfort to the patient the connector regulates the vacuum by covering or partially covering a vent port with the thumb of the clinician who is doing the suctioning of the patient.

Features

1- For removal of Secretion from trachea and bronchial region.
2- Soft, frosted and kink resistant medical PVC tubing.
3- A traumatic, soft & rounded open tip with two lateral eyes.
4- Available with open end
5- Catheter Length: 52 cm.
6- Sizes: 5 FG to 20 FG.

Code	Size	Color
2002-5	5 FG	Grey
2002-6	6 FG	Light Green
2002-8	8 FG	Blue
2002-10	10 FG	Black
2002-12	12 FG	White
2002-14	14 FG	Green
2002-16	16 FG	Orange
2002-18	18 FG	Red
2002-20	20 FG	Yellow

Twin Bore Nasal Oxygen Cannula | Code : 2003

(Adult/Pediatric/Neonatal)

Description

- Suitable for easy and efficient administration of oxygen.
- Star lumen main tube to avoid accidental blockage.
- Soft and kink resistant PVC medical tubing.
- Soft Twin prong nasal tips to ensure equal distribution of oxygen through both air passages.
- Tube length as per client's request.
- Sizes:
  - *Adult* (Code: 2003-1)
  - Pediatric (Code: 2003-2)
  - Neonate (Code: 2003-3).

Oxygen Face Mask | Code : 2004

Variable Concentration Mask
(Adult/Pediatric)

Description

- The Oxygen Mask is used to provide oxygen for respiration with maximum comfort to the patient system.
- Suitable for oxygen therapy.
- Swivel connector for patient comfort.

Features

1- Elongated face mask.
2- Clear & soft mask for patient comfort.
3- Adjustable elastic strip and integrated nose clip for proper positioning of the mask.
4- Star lumen shaped tube to ensure continuous flow of oxygen.
5- Proximal end of tube is connected with funnel-shape connector for easy connection with oxygen source.

Sizes:
Adult (Code: 2004-1)
Pediatric (Code: 2004-2).
Tube length as per client's request.

Nebulizer Mask | Code : 2007

Aerosol Therapy Mask
(Adult/Pediatric)

Description

• The Oxygen Mask is used to provide oxygen for respiration with maximum comfort to the patient system.
• Swivel connector for patient comfort.
• Suitable for oxygen therapy.
• Specially designed nebulizer chamber with nebulization rate of approximately 3cc in 10 minutes.
• Complete kit consists of: Mask, Nebulizer, and star lumen tube.

Features

1- Elongated face mask for long term use.
2- Clear & soft for patient comfort.
3- Adjustable elastic strip & integrated nose clip for proper positioning of the mask.
4- Proximal end of tube is connected with funnel-shape connector for easy connection with oxygen source. Tube length as per client's request.
Sizes:
Adult (Code: 2007-1)
Pediatric (Code: 2007-2).

Guedel Air Way | Code : 2005

Description

• The Guedel Airway is used to maintain an unobstructed Oropharyngeal Airway and it prevents biting of tongue and airway occlusion.
• Suitable for maintaining an unobstructed oropharyngeal airway during general anesthesia and in unconscious patients.
• Rounded traumatic edges.
• Smooth airway path for easy cleaning.
• Color coded for easy identification of sizes.
• *Sizes: 00, 0, 1, 2, 3, 4, 5*

Size	00	0	1	2	3	4	5
Code	2005-00	2005-0	2005-1	2005-2	2005-3	2005-4	2005-5
Color	Blue	Black	White	Green	Orange	Red	Yellow

Mucus Extractor | Code : 4004

Description

• Mucus Extractor is designed for aspiration of secretion from oropharynx for microbiological examination mucus specimen.

Features

1- Separate screw top lid for safe sealing and handling of mucus.
2- Soft, frosted & kink resistant PVC medical tubing.
3- Available with thumb control suction catheter.
4- Container Capacity: 25 ml.
5- Suction tube Length: 40 cm.
6- Suction tube size: 10 FG.

Available Types of Endotracheal Tube:

A- Oral Preformed Endotracheal Tube Cuffed

(Code No.: 4009/PO)

- Incorporates a preformed curvature designed to reduce tube kinking.
- Preformed shape directs tube downward,rests on patient's chin.
- Single-use, sterile

B- Nasal Preformed Endotracheal Tube Cuffed

(Code No.: 4009/PN)

- Preformed shape directs tube over patient's Forehead.
- Incorporates a preformed curvature designed to reduce tube kinking
- Single-use, sterile.

C- Oral Preformed Endotracheal Tube without Cuff

(Code No.:4010/PO)

- Incorporates a preformed curvature designed to reduce tube kinking
- Preformed shape directs tube downward, rests on patient's chin.
- Single-use, sterile.

D- Nasal Preformed Endotracheal Tube without Cuff

(Code No.: 4010/PN)

- Preformed shape directs tube over patient's forehead.
- Incorporates a preformed curvature designed to reduce tube kinking.
- Single-use, sterile.

Endotracheal Tubes | Code : 4005

A. Endotracheal Tube Without Cuff (Plain)

Description

• Nasal, oral tip suitable for nasal, oral intubations.
• Murphy eye at distal end for atraumatic intubation.

Features

1- Made of special thermo sensitive material readily conforming to body curvatures at body temperature.
2- X-Ray opaque line on the tube to facilitate easy location of tube.
3- Sizes: 2-9 Fr

Endotracheal Tubes | Code : 4006

B. Endotracheal Tube Cuffed

Description

• Provided with soft cuff based on high volume and low pressure at the distal end.
• Non-return valve with pilot cuff for easy assessment of the pressure in the main cuff.
• Murphy eye at distal end for a traumatic intubation.

Features

1- Made of special thermo sensitive material readily conforming to body curvatures at body temperature.
2- X-Ray opaque line on the tube to facilitate easy location of tube.
3- Sizes: 2-9 Fr

Reinforced Endotracheal Tube Cuffed | Code : 4007

Description

• Provided with soft cuff based on high volume & low pressure at the distal end.
• Non-return valve with pilot cuff for easy assessment of the pressure in the main cuff.
• Murphy eye at distal end for a traumatic intubation and extubating.

Features

1- Reinforced with Stainless Steel coil to assure continuous non-blockage of air in the tube during operations.
2- Made of special thermo sensitive material readily conforming to body curvatures at body temperature.
3- X-Ray opaque line on the tube to facilitate easy location of tube.
4- Sizes: 4-9 Fr

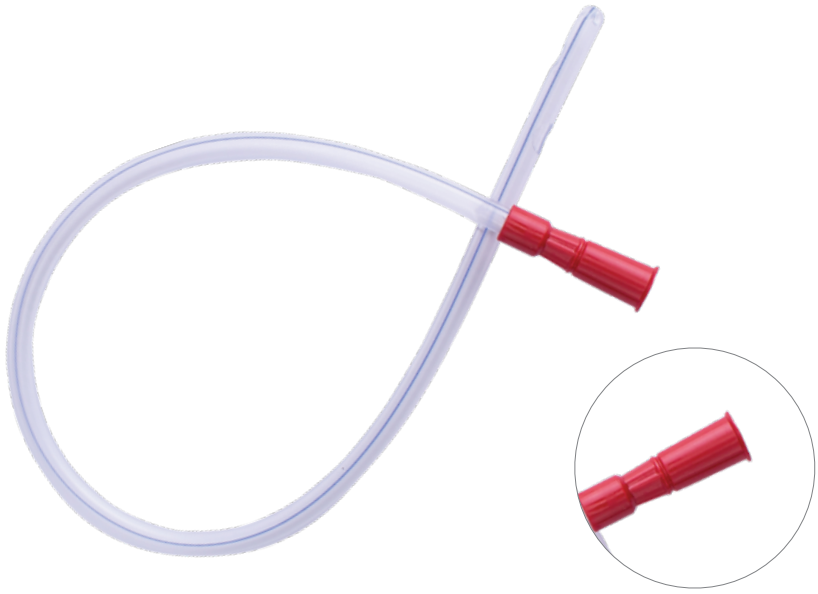
Double Lumen Endotracheal Tube | Code : 4011

Features

• To be placed in either the esophagus or the trachea.
• Soft, pharyngeal cuff.
• Color-coded stems and pilot balloons
make it easier to identify the esophageal and tracheal lumens.
• Placement ring to line up with the teeth or alveolar ridge helps to assure proper placement
• Available as
Left (code no.4011/L)
Right (code no.4011/R)
• Single-use, sterile
• Available sizes:
(31,33, 35, 37, 39 ,41, 43, 45 Fr)

Urology

1. Nelaton Cateheter *(Male)*
2. Nelaton Catheter *(Female)*
3. Urine Collection Bag For *(Adults)*
4. Pediatric Urine Bag
5. Urine Collection Bag Without Outlet *(Empty Bag)*
6. Urine Collection Bag With Sampling Port
7. Latex Foley Catheter
8. Silicone Foley Catheter



Nelaton Catheter

Code : 3001, male
Code : 3002, female

•Description

• For short term bladder catheterization through urethra .
• Catheter Length: 40 cm. for males
• Catheter Length: 32 cm. for females
• Sizes: 6 FG to 24 FG.

•Features

1- Soft, frosted and kink resistant medical PVC tubing.
2- Atraumatic, soft, rounded, closed tip with two lateral eyes for efficient drainage.
3- Color coded plain connector for easy identification.

Code	Size	Color
3001-6 3002-6	6 FG	Light Green

3001-10 3002-10	10 FG	Black
3001-12 3002-12	12 FG	White
3001-14 3002-14	14 FG	Green
3001-16 3002-16	16 FG	Orange
3001-18 3002-18	18 FG	Red
3001-20 3002-20	20 FG	Yellow
3001-22 3002-22	22 FG	Violet
3001-24 3002-24	24 FG	Light Blue

Urine Collection Bags for Adults

A. Urine Collection Bag with Push/Pull Connector

Code : 3003

• Description

• The Urine Bag is used to collect urine from a patient. It is connected to Foley's & Nelaton Catheters.
• With bottom outlet & top inlet.
• For short- & long-term urine collection.
• Holes at the top for hanging the bag.
• Capacity 2000 ml.

• Features

1- Soft & kink resistant PVC medical tubing.
2- With non- return valve.
3- Bag graduated in ml.
4- Conical inlet connector with Cap.
5- Tube length as per requested.
6- With Push/Pull connector.

B. Urine Collection Bag with T-Connector

Code : 3008

• Description

• For short term urine collection.
• With bottom outlet & top inlet.
• Capacity 2000 ml.
• For clean single hand operation and efficient emptying of the bag.

• Features

1- Soft and kink resistant PVC medical tubing.
2- With non-return valve.
3- Bag graduated in ml.
4- Conical inlet connector with Cap.
5- Tube length as per requested.
6- With T-connector.

C. Urine Collection Bag with Leg Support

Code : 3004

• Description

• For short term urine collection.
• With bottom outlet and top inlet.
• Available with leg straps.
• Capacity 500 ml.

• Features

1- Soft and kink resistant PVC medical tubing.
2- With non-return valve.
3- Bag graduated in ml.
4- Conical inlet connector with Cap.
5- Tube length 25 cm.

Pediatric Urine Collector

Code : 3005

•Description

• For short term urine collection.
• Suitable for both male and female infants.
• Provided with special adhesive for better grip and easy removal from the soft skin of the infant.
• Capacity 100 ml.

•Features

1- Bag graduated in ml.
2- Adhesive sponge.

Urine Collection Bag with Sampling Port

Code : 3010

•Description

• For short term urine collection.
• With bottom outlet and top inlet.
• Capacity 2000 ml.

•Features

1- Soft and kink resistant PVC medical tubing.
2- With non-return valve.
3- Bag graduated in ml.
4- Conical inlet connector with Cap.
5- Tube length as per requested.

Urine Collection Bag without Outlet (Empty Bag)

Code : 3009

•Description

• For short term urine collection.
• With top inlet.
• Capacity 2000 ml.

•Features

1- Soft and kink resistant PVC medical tubing.
2- With non-return valve.
3- Bag graduated in ml.
4- Conical inlet connector with Cap.
5 Tube length 15 cm.

Latex Foley Catheter (2-Way/3-Way)

Code : 3006

•Description

• For short term bladder catheterization (2 way).
•Sizes: 6 FG to 24 FG.
• For blood irrigation and drainage (3-way).

•Features

1- Soft, frosted and kink resistant latex coated with silicone.
2- Atraumatic, soft, rounded, closed tip with two lateral eyes for efficient drainage.
3- Color coded plain connector for easy identification.

Size	Type	Code	Color
6	2-Way	3006-6/2	Light Green
8	2-Way	3006-8/2	Blue
10	2-Way	3006-10/2	Black
12	2-Way	3006-12/2	White
14	2-Way	3006-14/2	Green
16	2-Way	3006-16/2	Orange
	3-Way	3006-16/3	
18	2-Way	3006-18/2	Red
	3-Way	3006-18/3	
20	2-Way	3006-20/2	Yellow
	3-Way	3006-20/3	
22	2-Way	3006-22/2	Violet
	3-Way	3006-22/3	
24	2-Way	3006-24/2	Light Blue
	3-Way	3006-24/3	

Silicone Foley Catheter (2-Way/3-Way) | Code : 3007

•Description

• For long term bladder catheterization (2 way).
•Sizes: 6 FG to 24 FG.
• For blood irrigation and drainage (3-way).

•Features

1- Soft, frosted and kink resistant transparent silicone.
2- Atraumatic, soft, rounded, closed tip with two lateral eyes for efficient drainage.
3- Color coded plain connector for easy identification.

Size	Type	Code	Color
6	2-Way	3007-6/2	Light Green
8	2-Way	3007-8/2	Blue
10	2-Way	3007-10/2	Black
12	2-Way	3007-12/2	White
14	2-Way	3007-14/2	Green

18	2-Way	3007-18/2	Red
	3-Way	3007-18/3	
20	2-Way	3007-20/2	Yellow
	3-Way	3007-20/3	
22	2-Way	3007-22/2	Violet
	3-Way	3007-22/3	
24	2-Way	3007-24/2	Light Blue
	3-Way	3007-24/3	

Gastroentrology

1. Ryle's Tube
2. Infant Feeding Tube

Ryle's Tube | Code : 4001

Description

• For nasogastric introduction for nutrition and aspiration of intestinal secretion.
• Closed distal end coned with radio-opaque for accurate placement.
• Four lateral eyes.
• Tube with radio-opaque line, marked at 50, 60 and 70 cm
from the tip for accurate placement.

Features

1- Soft, frosted and kink resistant PVC medical tubing.
2- Color coded connector for easy identification of size.
3- Tube Length: 105 cm.
4- Sizes: 6 FG to 22 FG.

Code	Size	Color
4001-6	6 FG	Light Green
4001-8	8 FG	Blue
4001-10	10 FG	Black
4001-12	12 FG	White
4001-14	14 FG	Green
4001-16	16 FG	Orange
4001-18	18 FG	Red
4001-20	20 FG	Yellow
4001-22	22 FG	Violet

Infant Feeding Tube | Code : 4003

Description

• For neonatal and pediatric nutritional feeding.
• Closed distal end with two lateral eyes.
• Tube with radio-opaque line, marked at 20 cm from the tip for accurate placement.

Features

1- Soft, frosted and kink resistant PVC medical tubing.
2- Color coded connector for easy identification of size.
3- Tube Length: 40 cm.
4- Sizes: 4 FG to 10 FG.

Code	Size	Color
4003-4	4 FG	Red
4003-5	5 FG	Grey
4003-6	6 FG	Green
4003-8	8 FG	Blue
4003-10	10 FG	Black

Blood Management

1. Blood Administration Set
2. Measured Volume Blood Adminstration Set (Hemoset)..

Blood Infusion Set | Code : 7007

• Description

• Blood Transfusion Sets are designed to administer blood into human circulating system by using intravenous catheter and cannula.

• Features

1- For transfusion of blood or blood components.
2- Transparent & flexible drip chamber.
3- Approximately 20 drops/ml.
4- Soft and kink resistant PVC medical tubing.
· With 200-micron blood filter.

Measured Volume Blood Administration Set (Hemo-Set) | Code : 7008

• Description

• Measured Volume blood Administration Sets are designed to administer blood into human circulating system by using intravenous catheter and cannula.

• Features

1- Clear, soft, cylindrical and calibrated measured volume chamber with bold graduations.
2- Bacteria retentive air inlet.
3- Automatic shut off valve prevent air trapping in the fluid line once the measured volume chamber is empty, and it also indicates the level of liquid.
4- Soft & Kink resistant PVC medical tubing.
· Available sizes:
100 ml (Code 7008 – 100).
150 ml (Code: 7008 - 150).

Wound Drainage

1- Yankauer Suction Unit

2- Closed Wound Suction Unit (Hemosuc)

Yankauer Suction Unit | Code : 9008

Description

• Suitable for pre-operative removal of secretion of body fluids.
• Standard funnel connector at end of tubing to connect
Yankauer Handle easily and different suction pump lines.
• Yankauer Handle is open end with 4 lateral eyes to withstand negative pressure and ensures co tinuous and easy suction of fluid.

Features

1- Soft and kink resistant ribbed PVC medical tubing.
2- Tube die: I Ø 6.0 mm, O Ø 8.5 mm.
3- Tube length 210 cm.
4- Options:
- *Yankaur Tube Only (Code: 9008-03)*
- *Yankaur Handle Only (Code: 9008-04)*

Closed Wound Suction Unit (Hemosuc) | Code : 9007

Description

• Suitable for close wound drainage under negative pressure post operatively with the option to operate one or two catheters simultaneously.
• Graduated Bellow chamber.
• Yankauer Handle easily and different suction pump lines.
• Yankauer Handle is open end with 4 lateral eyes to withstand negative pressure & ensures continuous and easy suction of fluid.

Unit Consists of

1- Bellow unit with connector.
2- Connecting tube with clamp.
3- Curved trocar needle with catheter.
4- Spare perforated Redon drain catheter.
5- Size of Bellow Chamber: 400 ml, 600 ml
6- Sizes of Accessories: 10 FG to 18 FG

Others

1- Umbilical Cord Clamp (Standard/Premium)

2. A.v. Fistula Needle

3. Surgical Gloves

4. Examination Gloves

5. Face Mask Ear Loop Type (3ply).

Umbilical Cord Clamp | Code : 9002

Description

• The Cord Clamp is used to clamp the umbilical cord immediately after the birth of the child.
  • Cord Clamp with Standard Quality *(Code: 9002-1).*
  • Vaso Clamp with Premium Quality *(Code: 9002-2).*

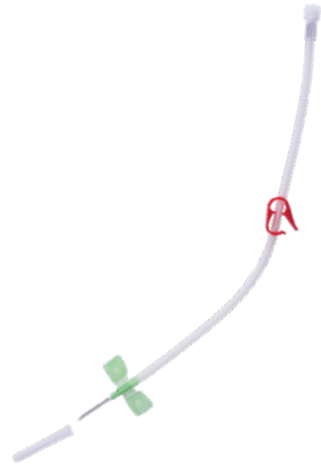
Features

1- Security locks to prevent accidental opening after clamping.
2- Grooved clamping area to prevent slipping of umbilical cord.

A.V. Fistula Needle | Code : 9003

Description

• Fistula Needle is designed to administer blood into the patients.
• It consists of a colored wing to identify the needle gauge and a stainless steel Cannula at one end and a long PVC medical tube with a closure on the other end.



Features

1- To connect blood lines to the patients during the dialysis.
2- Back eye needle to minimize interruption of blood flow.
3- Siliconized ultra-thin needle to minimize trauma to the patient.
4- Soft, frosted and kink resistant PVC medical tubing.
5- Available in Sizes
15G, 16G & 17G (Single - Double) Pack.

Code	Size	Color
9003-15	15 G	Orange
9003-16	16 G	Green
9003-17	17 G	Blue

Surgical Gloves (Powder Free) | Code : 9013/PF

Description

• The product is used to cover hands during Surgery.
• Sizes: 6.5, 7.0, 7.5, 8.0, 8.5

Features

1- Natural Latex Powder Free

Examination Gloves Latex (Powder Free) | Code : 9016

Description

• The product is used to protect the hands from infection risks.

Features

1- Excellent flexibility and uncompromised protection with high degree of sensitivity.
2- Non-sterile.
3- Sizes:
Small, Medium, Large, X-Large.

Face Mask Ear-loop Type (3 -Ply) | Code : 9009

Description

• The Face Mask is made of a 3-ply for daily use with Comfort.
• Odorless.

Features

1- Fluid resistant.
2- With Nose Plastic Support.
3- With Elastic Ear loop.
4- Ultrasonic welding.
